### DETAILED ACTION

This is the first action relating to serial application number 09/899,349 filed 07-05-2001.

Claims 12-16 and 21 are currently pending.

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:
2. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.
3. The reissue oath/declaration filed with this application is defective because it fails to contain a statement that all errors, which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414. In addition applicant fails to specify the errors. The copy of the consent of the parent reissue application does not indicate that the assignee has consented to the addition of the new error correction of the continuation reissue application to the original patent. Presumably, a new correction has been added, since the parent reissue application is still pending.
4. Claims 12-16 and 21 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

5. Claim 21 is rejected under 35 U.S.C. 251 as being improperly broadened in a reissue application made and sworn to by the assignee and not the patentee. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

6. Claim 21 is rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. The broaden claim is filed more than two years from the original patent and applicant has failed to include an oath or declaration indicating a desire to seek broaden claims within two years of the patent bars any subsequent attempt to broaden the claims after the two year limit. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.
